Go, shine
in the
world

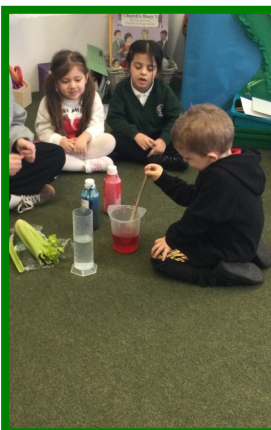

What have we been learning this week?

This week we have been reading the story *Handas Surprise*, about a little girl who takes a fruit basket to her friend but when she arrives she gets quite surprise, the original fruit had gone and been replaced with tangerines! Nursery sequenced the story with their partners and acted it out using story language.

Knowledge and Understanding of the world: Science

This week the children carried out a science experiment to observe how a plant uses water. Using celery and , the children coloured some water and put the stems inside. Over the week we kept making observations and saw that the water was travelling up along the stems. We checked our predictions and most of us were right in what we thought was going to happen.

How can you help your child with their learning?

As we begin to near summer and the weather begins to get hotter, please can you ensure you pack a sun hat in your child's school bag and apply sun cream before school. Your child will be spending time in the out door provision so its important to keep them safe.

Enjoy your Easter break!

Hot Cross Buns

Hot cross buns!
Hot cross buns!
One a penny...
Two a penny...
Hot cross buns!

If you have no daughters,
give them to your sons.
