Reception Newsletter

Friday 7th March 2025

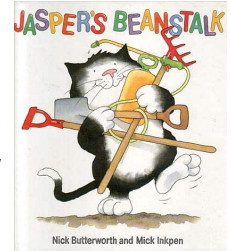

Go, shine
in the
world

What have we been learning this week?

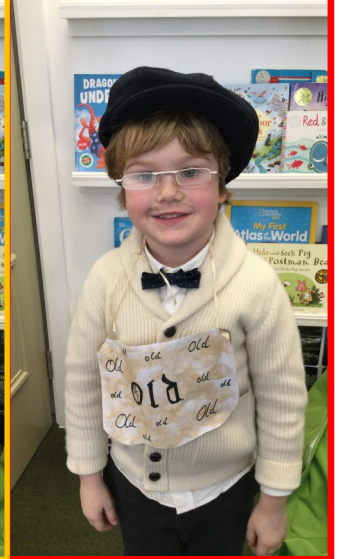

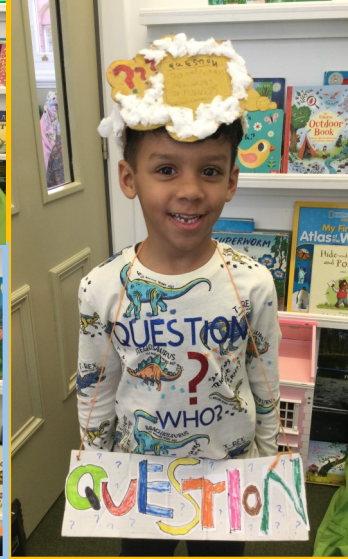

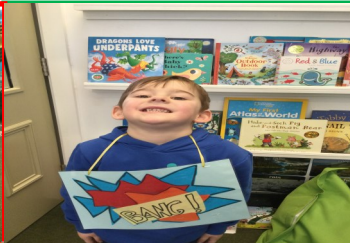

English: Jasper's Beanstalk

This week our class text was 'Jasper's Beanstalk'. After listening to the story and hearing the story language, Reception retold the story of how Jasper grew his plant from a bean into a beanstalk. They practised using full sentences when retelling the story using capital letters, finger spaces and full stops!

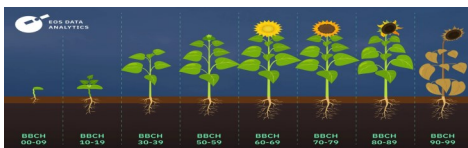

Maths: Length

The children have been learning about length this week, they sorted objects using language such as 'shorter' and 'longer' and ordered and compared objects based on length. They then spent time measuring different objects around the classroom using counting cubes.

Knowledge and Understanding of the world: Growing

This week reception continued to look at our new topic of growing. They explored looking at different types of seeds, looking at the different colours, shapes and sizes. We then matched the seed to the plant it would grow into. Using what they had learnt from Jasper's beanstalk the children then had a go at planting their own strawberry seeds.

How can you help your child with their learning?

Use the number bond to 10 song from the previous newsletter to help your child remember the pairs of numbers that add together to make 10.
